PCE is proud to be part of this great community since 1918. Building Success...Working Together July 2017

Our Cooperative Appreciation...

The value of our patrons and customers is significant to our organization. Our employee team is all in to deliver the best product experience to our growers, patrons, and customers. They are at the very heartbeat of this cooperative. We have been involved in much planning and preparation in celebration of our 99 years serving our communities. You are invited to our customer appreciation on August 4th from 3pm to 8pm. Come have dinner on us and enjoy a few rounds of bingo. Our team would like to shake your hand and express our appreciation for your continued business. We are grateful for the people we serve. For more information, visit us online at www.pce-coops.com

Alliance Nutrition Update...

With the show season quickly approaching, I would like to mention a few available feed products that could put your animals over the top. Pearl City Elevator handles Hubbard's Show Rite Show Feeds which are formulated to help animals perform at their very best. Let's look at a few that may be of interest.

George Drewry
Commodity Sales and Nutrition
gdrewry@pce-coops.com
815-809-2667 ext. 505

For cattle, there is Show-Rite Cruiser, a high fiber, complete growing feed formulated to achieve frame and muscle growth while maintaining "bloom". This feed is followed by Show-Rite Throttled Up, a high energy, high fat complete finishing feed formulated to maximize animal performance and to provide the bloom and smooth finish needed to win it all. Also for cattle is a specialty product called Hide And Hair which is designed to be fed 60-90 days prior to the show to grow hair and encourages healthy skin.

For pigs, we handle the Show Pig 10.0 Base Mix which can be added to corn and soybean meal to make a complete pig feed. Show Rite Depth N Dimension is a holding feed used when pigs have reached the target weight and one wants to maintain the pig at that size. Show Rite Fat-N-Fluffy is a blend of fats and dairy proteins to provide palatability and optimal intake while enhancing bloom and sheen.

Two other multi-species products to be aware of are Show Rite Muscle-In-Motion (M-n-M) which is formulated to improve muscle mass and muscle shape and Show Rite Stretch which is designed to increase expansion of the belly and can be fed day of or a few days prior to the show.

There are also Show Rite Feeds designed specifically for goats, sheep and poultry so contact Lena Coop or your Alliance Nutrition representative for more information.

Get the edge on Fall data collection.

Are you looking for a way to seamlessly transfer your data from the combine to the cloud? Get the edge on data management and take advantage of the remaining months of in season insights. You still have time to sign up for this in season limited time offer.

Limited Time Offer

Sign up for the Smart VR or Smart Nutrient Solution and receive the Smart Solution right away for the rest of the growing season at no cost. You will start paying for your precision solution from Farmers Edge in the fall.

Why Sign up Now?

Reserve your fertility program for Fall 2017 before it sells out

- Get on-farm weather stations and in-field telematics devices
- Automatically collect weather, equipment and operational data now to gain insights to support in-season decisions
- Get access to all your farm's data in one place with FarmCommand
- Access in-season high-resolution, highest frequency satellite imagery
- Start monitoring the health of your crop right after seeding with a unique set of Field Variability Maps

Receive in-person, online and over-the-phone agronomic and technical support

Be sure to check out the quarterly newsletter for more information on field health images and NDVI provided by Farmer's Edge.
